

# High Speed CW Championship in Hmafair2013

We are pleased to announce that “High Speed CW Callsign Copying Championship” will be held in the Tokyo Hamfair 2013.

From U-12 to O-65, top 3 of each category will be praised with original medal.

All of you who know Morse codes are most welcomed to this event.

[Event Title]: Hamfair 2013 High Speed CW championship

[Date]: 2013-8-24(Sat) and 25(Sun) <commendation ceremony from 3PM of Aug. 25<sup>th</sup>>

[Place]: “CW no Sato” CW の里, Booth No.J-60

[Competition]: Copy callsign by CW as fast as possible

[Software]: CW Freak.NET (Practice B)

[How to rank]:

- Compete the maximum speed received (WPM)
- When WPM is same, score holder with higher (COMBO) wins
- When both WPM and COMBO are same, score holder with higher GREAT wins

[Condition]: Initial Speed can be selected by the player (no ceiling, but not less than 5WPM). The player can also select number of callsign to be received between 1 and 20.

[Category]:

- 1) Elementary School [Under or equal to Age 12]
- 2) Junior/High School [Age between 12-18]
- 3) General [Age 19 to 64, but includes 18-year-old-university-student]
- 4) Senior [Age 65 and up]

[Commendation]:

Top tree of each category will be commended by original medal..

Record Certificate will be issued for every player.

[Managed by]: CW no Sato Project Team

[Supported by]: CQ Hamradio Magazine

## What is “CW Freak.NET”?

CW Freaks.NET is a freeware for High Speed CW copying practice developed and released in March, 2013 by JI0VWL, Mr.Imaizumi.

This software is successor of CW Freak which had been developed by Mr.Imaizumi as a Windows version of the late 90s’ PCTON2 (dedicated for DOS PC). Keeping its user interface compatible with the conventional CW Freak, it works on Windows Vista, 7 and 8 now.

It’s quite easy to play. Just type down the callsign (including DX) what you listen from the PC. When you copy callsign correctly then speed increases, when you make mistake then speed decreases.

It is an excellent software that doesn’t depend on the level of player. From beginner to HST (High Speed Telegraph) competition level player, any level of player can practice with fun.

CW Freaks.NET screen sample (competition mode)

Image from [http://www.ji0vwl.com/cw\\_freak\\_net\\_e.html](http://www.ji0vwl.com/cw_freak_net_e.html), the Software program may be downloaded from this website.

Competition result can be uploaded to the on-line ranking page, so you can virtually compete with players worldwide. (There are three ranking tables, such as Monthly, Annual and All time record)

No.	Call	Points	WPM	Entry Datetime(UTC)
1	YJ6W	790851	107	2013/06/04 14:06
2	DJLYFK	476079	91	2013/03/11 17:25
3	KE7OPG	308079	79	2013/03/10 04:35
4	IN3LBQ	280694	77	2013/06/06 09:36
5	JG1SPS	216459	71	2013/05/25 23:24
6	HB9CSA	207295	70	2013/03/24 19:14
7	R8OA	203764	69	2013/05/16 12:57
8	DL4UNY	200068	70	2013/04/16 18:36
9	DL1NEO	197413	69	2013/04/26 13:46
10	JF3KQA	189730	67	2013/03/10 06:13
11	HB9DHG	183021	65	2013/04/01 19:17

On-line ranking screen image (all time record)

Competition mode is fixed its initial speed as 25WPM (equivalent to 125 letters per minutes) so that it is a bit hard for beginners. For such user, there are two kinds of practice modes. Parctice-A is fixed its speed and Practice-B may set initial speed freely.

Practice-B can select initial speed and number of callsign to be received)

In the CW Championship in Hamfair 2013, Practice-B is used so that player can select preferable starting speed (>5WPM) and No. of stations to be received (1 to 20) depending on each player's skill.

(For example, a beginner who just remembered Morse codes' table may start from 5WPM and say 10 QSOs. If you are skilled operator who is looking forward to taking part of HST international championship, then you may start from 50WPM with 20QSOs, etc.)

JA1QRQ	
Rank	---
Score	---
Max WPM	<b>49</b>
Max COMBO	<b>8</b>
Great	<b>16</b>
so-so	<b>2</b>
Bad	<b>2</b>
Terrible	<b>0</b>

Result Window of Practice-B  
Max WPM is the maximum speed  
Max COMBO is number of continuous correct answer  
Great is number of correct callsigns
